

SerialComms::connectToSerial

SerialComms::getSerialEnumerations

SerialComms::getComPorts
Enums

```
graph LR; A[SerialComms::connectToSerial] --> C[SerialComms::getComPorts Enums]; B[SerialComms::getSerialEnumerations] --> C;
```

The diagram illustrates a dependency or relationship between three components. On the left, two separate boxes are stacked vertically. The top box contains the text 'SerialComms::connectToSerial' and the bottom box contains 'SerialComms::getSerialEnumerations'. Both boxes have a red border. Arrows from the right side of each of these boxes point towards a single, larger box on the right. This box has a gray fill and a black border, and it contains the text 'SerialComms::getComPorts' on the top line and 'Enums' on the bottom line.
