

MeasuringInterface
::on_gridSlider_sliderMoved

MeasuringInterface
::on_mmSpinbox_valueChanged

MeasuringInterface
::updateGridSizeLabel

```
graph LR; A[MeasuringInterface::on_gridSlider_sliderMoved] --> C[MeasuringInterface::updateGridSizeLabel]; B[MeasuringInterface::on_mmSpinbox_valueChanged] --> C;
```

The diagram illustrates a function call or signal connection. Two source functions, 'MeasuringInterface::on_gridSlider_sliderMoved' (highlighted with a red border) and 'MeasuringInterface::on_mmSpinbox_valueChanged', are shown on the left. Arrows from both point to a target function, 'MeasuringInterface::updateGridSizeLabel', shown in a gray box on the right.
