

MainWindow::on_positionCalibration
Button_pressed

MainWindow::init

MainWindow::switchAlgToGantry

```
graph LR; A["MainWindow::on_positionCalibration  
Button_pressed"] --> C["MainWindow::switchAlgToGantry"]; B["MainWindow::init"] --> C;
```

The diagram illustrates a callout structure. On the left, there are two rectangular boxes with red borders. The top box contains the text 'MainWindow::on_positionCalibration' followed by 'Button_pressed' on a new line. The bottom box contains the text 'MainWindow::init'. Two blue arrows originate from the right side of these boxes and point towards a single, wider rectangular box on the right. This box has a gray fill and a black border, and it contains the text 'MainWindow::switchAlgToGantry'.
