

SerialComms::serialsConnected

```
graph LR; A[SerialComms::serialsConnected] --> B[SerialComms::getSerialEnumerations];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is light gray with a black border and contains the text 'SerialComms::serialsConnected'. A dark blue arrow points from the right side of this box to the left side of the right box. The right box is white with a red border and contains the text 'SerialComms::getSerialEnumerations'.

SerialComms::getSerialEnumerations
