

SerialComms::connectToSerial

```
graph LR; A[SerialComms::connectToSerial] --> B[Errors::serialsAlreadyConnected]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a red border and contains the text 'SerialComms::connectToSerial'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'Errors::serialsAlreadyConnected'.

Errors::serialsAlreadyConnected
