

MainWindow::init

MainWindow::drawCalibration
Lines

MainWindow::setRingLighGUI

```
graph LR; A[MainWindow::init] --> C[MainWindow::setRingLighGUI]; B[MainWindow::drawCalibration Lines] --> C;
```

The diagram illustrates a dependency or call relationship. Two source functions, 'MainWindow::init' and 'MainWindow::drawCalibration Lines', are shown on the left. Arrows from both of these functions point to a single target function, 'MainWindow::setRingLighGUI', which is located on the right. The target function is highlighted with a gray background, while the source functions have white backgrounds with red borders.
